After years of working for others and not as a sole proprietor, I have taken a step forward for my family and began a woman-owned business in order to Copyright protect the work of my family. We are the last Holocaust survivors known on Earth. This set back has caused significant loss for us, not only as a family but also as a remaining people. As the endangered bloodline of David, we are not equally represented systemically, therefore it is needed that we gain external funds or revenue in order to rebuild.

While this rebuild is urgently pressing in time, I do still need to work part-time for the needed investments to be built to size. I won't need to stay forever as an employee, but for the time being, a temporary work place and community is needed while I work on designing the organic experience online.

Your support is greatly appreciated.

Sincerely,
Princess Forest Evergreen van Eeden
